# Peonies That Really Bloom

NOW-A-DAYS when so many blocks of Peonies are not blooming well because of diseased roots, it is a great pleasure to see a block of real bloom. We are digging four blocks of Peonies this Fall all blooming just as well as that below, which is the smallest of our blocks. And these are not old, rotten, decrepit Peonies that have been used to the end of their usefulness for cut-flowers either. Rather they are strictly three (3) year old, nursery grown. You can judge the thriftiness by comparing growth with the six year old boys standing in the block. Find them.

You  
want  
Peonies  
that  
bloom  
like  
these.

See the  
six  
year  
old  
nurserymen  
in the  
picture.

Picture shows three rows of Duc of Wellington on the left,  
balance of block Boule de Neige.
